BBA

Biomembranes

Vol. 1105, 1992

Cumulative Contents

Regular Papers

Nucleoside transport in brush border membrane vesicles from human kidney
M.M. Gutierrez, C.M. Brett, R.J. Ott, A.C. Hui and K.M. Giacomini (USA) 1

Incorporation into a planar lipid bilayer of K channels from the luminal membrane of rabbit proximal tubule
F. Bellemare, N. Morier and R. Sauvé (Canada) 10

Cyclic AMP stimulates Ca^{2+}-ATPase-mediated Ca^{2+} extrusion from human platelets
J.S. Johansson, L.E. Nied and D.H. Haynes (USA) 19

Stimulation of dense tubular Ca^{2+} uptake in human platelets by cAMP
J. Tao, J.S. Johansson and D.H. Haynes (USA) 29

Cyclic GMP increases the rate of the calcium extrusion pump in intact human platelets but has no direct effect on the dense tubular calcium accumulation system
J.S. Johansson and D.H. Haynes (USA) 40

Effects of magnesium and ATP on pre-steady-state phosphorylation kinetics of the Na^+, K^+-ATPase
M. Campos and L. Beaugé (Argentina) 51

Sodium ion and proline binding sites in the Na^+/proline symport carrier of *Escherichia coli*
K. Hanada, T. Yoshida, I. Yamato and Y. Anraku (Japan) 61

Mechanisms of heterogeneity of Na^+-P_i cotransport in superficial and juxtamedullary renal cortex
M. Loghman-Adham (USA) 67

Proline transport across the intestinal microvillus membrane may be regulated by membrane physical properties
D.C. Sadowski, D.J. Gibbs and J.B. Meddings (Canada) 75

Inhibition of transplasma membrane electron transport by transferrin-adriamycin conjugates
I.L. Sun, E.E. Sun, F.L. Crane, D.J. Morré and W.P. Faulk (USA) 84

Inactivation of a volume-sensitive basolateral potassium conductance in turtle colon: effect of metabolic inhibitors
K. Backman, B. Harrison, M. Meysenberg, C. Schwartz and W. Germann (USA) 89

Effects of polar carotenoids on dimyristoylphosphatidylcholine membranes: a spin-label study
W.K. Subczynski, E. Markowska, W.I. Gruszecki and J. Sielewiesiuk (Poland, USA) 97

A growth factor- and hormone-stimulated NADH oxidase from rat liver plasma membrane
A.O. Brightman, J. Wang, R.K.-m. Miu, I.L. Sun, R. Barr, F.L. Crane and D.J. Morré (USA) 109

Stimulation of the catalytic cycle of the Ca^{2+} pump of porcine plasma-membranes by negatively charged phospholipids
J. Lehotsky, L. Raeymaekers, L. Missiaen, F. Wuytack, H. De Smedt and R. Casteels (Belgium) 118

Calcium ion-mediated regulation of the α-toxin pore of *Staphylococcus aureus*
H. Tokunaga and T. Nakae (Japan) 125

The enzymatic synthesis of membrane glucolipids in *Acholeplasma laidlawii*
A. Dahlqvist, S. Andersson and Å. Wieslander (Sweden) 131

Binding of scatter factor to epithelial cell membrane protein: identification of its receptor
A. Joseph, M. Bhargava, E. Rosen and I.D. Goldberg (USA) 141

Structural stability of the erythrocyte anion transporter, band 3, in native membranes and in detergent micelles
M. Sami, S. Malik and A. Watts (UK) 148

Toxin pharmacology of the ATP-induced hyperpolarization in Madin-Darby canine kidney cells
M. Tauc, M. Gastineau and P. Poujeol (France) 155

Surfactant protein C precursor is palmitoylated and associates with subcellular membranes
D.K. Vorbroker, C. Dey, T.E. Weaver and J.A. Whitsett (USA) 161

Transmembrane redistribution of phospholipids of the human red cell membrane during hypotonic hemolysis
S.L. Schrier, A. Zachowski, P. Hervé, J.-C. Kader and P.F. Devaux (USA, France) 170

Uptake characteristics of polyamines into rat intestinal brush-border membrane
M. Kobayashi, K. Iseki, H. Saitoh and K. Miyazaki (Japan) 177

Rapid Report

Electrostatics and reduction of dimensionality produce apparent cooperativity when basic peptides bind to acidic lipids in membranes
M. Mosior and S. McLaughlin (USA) 185

Regular Papers

[^{3}H]Iloprost and prostaglandin E_2 compete for the same receptor site on cardiac sarcolemmal membranes
R.W. Lerner, G.D. Lopaschuk, R.C. Catena and P.M. Olley (Canada) 189

Versatility in lipid compositions showing prolonged circulation with sterically stabilized liposomes
M.C. Woodle, K.K. Matthay, M.S. Newman, J.E. Hidayat, L.R. Collins, C. Redemann, F.J. Martin and D. Papahadjopoulos (USA) 193

Annexins IV (p32) and VI (p68) interact with erythrocyte membrane in a calcium-dependent manner
J. Bandorowicz, S. Pikuła and A. Sobota (Poland) 201

Transport and decarboxylation of liposomal phosphatidylserine: effect of cations
R. Jasińska and J. Zborowski (Poland) 207

The interaction of various cholesterol 'ancestors' with lipid membranes: a ^{2}H-NMR study on oriented bilayers
M.-A. Krajewski-Bertrand, A. Milon, Y. Nakatani and G. Ourisson (France) 213

Effect of cell exposure to top or bottom phase prior to cell partitioning in dextran-poly(ethylene glycol) aqueous phase systems: erythrocytes as a model
H. Walter, T.J. Webber and E.J. Krob (USA) 221

Sulfur dioxide inhibits the sucrose carrier of the plant plasma membrane
L. Maurousset, R. Lemoine, O. Gallet, S. Delrot and J.-L. Bonnemain (France) 230

Interaction of α-tocopherol with fatty acids in membranes and ethanol
W. Stillwell, W. Ehringer and S.R. Wassall (USA) 237

Invertebrate epithelial Na^+ channels: amiloride-induced current-noise in crab gill
W. Zeiske, H. Onken, H.-J. Schwarz and K. Graszynski (Germany) 245

Effects of temperature variation and phenethyl alcohol addition on acyl chain order and lipid organization in *Escherichia coli* derived membrane systems. A ^{2}H- and ^{31}P-NMR study
J.A. Killian, C.H.J.P. Fabrie, W. Baart, S. Morein and B. De Kruijff (Netherlands) 253

Multiple conductance levels in rat heart inner mitochondrial membranes studied by patch clamping
D.B. Zorov, K.W. Kinnally, S. Perini and H. Tedeschi (USA) 263

Age-related thiamin transport by small intestinal microvillous vesicles of rat
G. Gastaldi, U. Laforenza, G. Ferrari, A. Casasco and G. Rindi (Italy) 271

The influence of Mg^{2+} on anion binding to sarcoplasmic reticulum membranes as detected by ^{35}Cl-NMR
S.T. Janetzky, H. Hanssum, G. Spatz-Kümbel and H.G. Bäumert (Germany) 278

Eicosatetraynoic and arachidonic acid-induced changes in cell membrane fluidity consonant with differences in computer-aided design-structures
M. Brown, K.M. Anderson, H. Patel, A.J. Hopfinger and J.E. Harris (USA) 285

Down-regulation and recycling of the nitrobenzylthioinosine-sensitive nucleoside transporter in cultured chromaffin cells
M. Torres, E.G. Delicado, M.D. Fideu and M.T. Miras-Portugal (Spain) 291

The volume changes associated with the operation of the 'simple' transporter
A.C. Hall and S.M. Jarvis (UK) 300

Permeabilizing action of filipin III on model membranes through a filipin-phospholipid binding
J. Milhaud (France) 307

Induction of Ca^{2+} transport in liposomes by insulin
K.S. Brimble and V.S. Ananthanarayanan (Canada) 319

Phospholipid-dependence of rat liver plasma membrane protein kinase activities – a new approach
N.J. Gavrilova, T.T. Markovska, A.B. Momchilova-Pankova, M.S. Setchenska and K.S. Koumanov (Bulgaria) 328

Rapid Report

Singlet oxygen production and fluorescence yields of merocyanine 540: a comparative study in solution and model membrane systems
M. Krieg (USA) 333

Cumulative Contents, Vol. 1105 337
